

#### Interpreting the Report

The scores and charts on the first two pages show cumulative averages over 12 weeks of client responses to our per-ticket survey questions. Each ticket belongs to a specific queue, and scores are reported at the queue level on page 3. The IS&T level rolls up all the surveys; Service Desk rolls up many CSS queues; Call Center is a subset of that and excludes the Repair Center, which is shown on its own. For all the charts, the 12-week window rolls forward each week, and the scores are always across that window.

The multiline charts try to convey the rhythm of service performance over time and the relative levels of satisfaction by service dimension. A high-performing service would have all its lines flowing consistently at or above 4.5 and not too far apart from each other.

Some queues have survey responses too intermittent to graph with weekly readings; those are show using only summary numbers for each dimension. The numbers are 12-week averages.

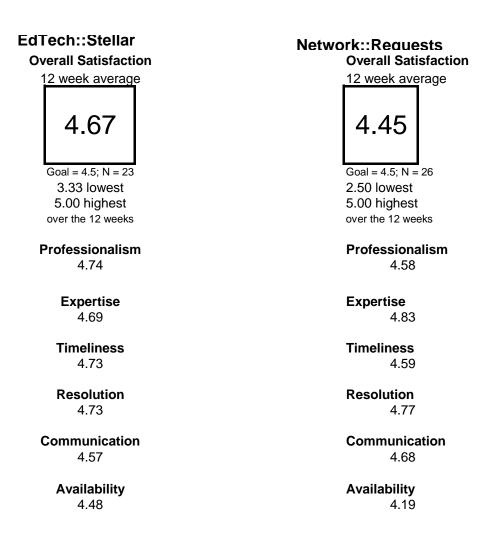

Detailed results by month by queue are shown on the third page showing up to 3 months and resetting at the beginning of the quarter. Color-

These Queues have low enough response rates per week that a weekly graph would be misleading.

All scores presented are a Quarterly average, to smooth out sparse data. Monthly detail appears in the table on the next page.

Note: the big box score of "Overall Satisfaction" refers to question 7 on the survey, not an aggregate of the other scores listed below.

				Jacob and Earnest have been very helpful and patient in
		1332659	5.00	helping me to resolve the computer issues I've been having.
				I have been in the process of installing a new Optiplex
				computer, a new printer, and switching from Thunderbird to
				Outlook, In the process i have been helped by Stuart, Jacob,
				and Andrew. Theyhave made it possible for me to sleep at

		4000450	F 00	You folks are handling a complex migration with good cheer
		1323158	5.00	and I'm impressed. I had to ask my question again to get any reply. When I finally
				got a reply, it did not really address my question, and I had
				already resolved it via a different route. I think calling is more
				effective than email, in terms of getting to someone when you
		1321656	2 50	really need it.
•		1321030	2.30	really fleed it.
				It would be nice to have the name of a person with that
				person's MIT phone extension and separate email address, who
				acts as the contact point. The system now is too impersonal.
				And, for my problem, no one ever explained to me the facts
				behind the case: What was wrong when I made contact? How
				was it fixed? (And, I'm not sure it is 100% fixed.) Prof. Richard

				The first few suggestions were done by email, and they were
				suggestions I had already tried to remedy the problem. I just
				ended up coming in when I had a spare minute, and that was
		1308276	4.17	extremely helpful, but it was a week later.
				Great to know Jesse was in 7am - I had a moment of panic

		1323255	5.00	Audrey Dobek-Bell It would have been helpful if the info to resolve my problem

				The problem was that I needed to get a fire wire, and IS&T had no idea where to get it on campus, so I went to the Apple Store

				I received a very quick response with a solution that worked.
		1317171	5.00	Again, I was very impressed with the service from IST. Thanks
				I had two separate queries - the first resulted in a need for me to get expert help (A rogue JAVA file had to be removed in safe
				mode from my computer before I could update JAVA). Then I
				called back for help in restoring my e-mail which was done
		1315666	5.00	perfectly. Many thanks!

		1309660	4.17	~A. It took a 2.5 days from when I gave the Macbook to Sloan
				Technology Services to when I got it back because parts had to
				be ordered by ITS. During that time I had no machine, so it
				would have been nice if it could have been done faster.
				Everyone was very nice and everything works perfectly now, so
	Help Desk::Service Center	1320625	5.00	I'm very satisfied overall.  I needed to call many times, and the hold message stated the
				predicted wait time as "very short" In reality, it was over half an
				hour. The staff misdiagnosed the issue as a problem far more
			<b>=</b> = ·	costly than what a second opinion at a different shop was able
		1296150	0.83	to diagnose and resolve for me.  I didn't deal with this directly, but it was taken care of very

		1123110		Very simple problem, which the staff resolved with no troubles
		1318611	4.17	by email.
				I am new to MIT so part of my issue was to figure out how to
				get to someone who could help. I thought I put a request in
				online but a week went by and nothing happened - so I walked
				over to N42 via advice from a co-worker - help was not available
				on the spot but I got a ticket number and the next afternoon I was contacted and my problem was resolved. Now I know
				what to do when my Blackberry loses its connection to the

	Mobile Devices	1325504		found the right path you guys were very helpful.
		1321471	5.00	Thanks!
				The staff who replied to my question were great and acted
				quickly. The only way the process could be improved is if there
				was a way for me (or other someone else in the Libraries) to
8/16/2010	Edtech::Stellar	1307578	5.00	directly manage Stellar privileges for library staff.

				Very good service. Only thing I would suggest is be a little
8/16/2010	Help Desk::Athena	1301505		more specific in saying which buttons to click.
		1294209	5.00	thanks for the wonderful work as always!

				were not helpful because what I needed was a new template.
				However once I explained that she contacted the eCat people
	Help Desk::Business Help	1318096	4.17	and it got taken care of pretty quickly. Thanks!
		1010000		Do not have one complaint. Everything was handled in a more
		1296620	5.00	than timely manner.
				I appreciate that, although the issue had not been resolved
				yet, IST told me that at once, then carried through by letting me

				some time. Also, thanks for letting me know exactly what the
				problem was and suggesting the go-around during my initial

	Help Desk::Call Center	1318241 1317017		Good job.
		1317017	3.00	After explaining my issue I got feedback and the problem was
				fixed although I was not told that I was good to go. I just
				happened to try again and it worked. So I assume they fixed it
		1316920	4.17	for me. Thanks.
				Barry was particularly helpful and went beyond the call of duty
		1316906	5.00	to help me troubleshoot other issues.
		1315398		The problem was not fixed but a work around was suggested
		1314946	5.00	already best :) i would have given 'very satisfied' to everything except it
				seems like it always takes a long time to speak to someone, am

				After I did the complicated installation a screen message
				appeared saying I needed a compiler for xome parts to run. I

0/3/2010 Help Beskt. Gail Geliter	1310635		Problem resolution was very good .
			There was a 3 business day delay between my filing the ticket
			and receiving a response. It wasn't a big deal as I didn't
			urgently need to solve the problem but, given how simple it was to resolve, it probably could have been speedier. I'm not
	1310263	4.17	unhappy about it, just giving my \$0.02
	1309887		Thanks so much to Bill! I adore the MIT HelpDesk
			Phone conversation was efficient and helpful. By the time I
	4000707		hung up, I'd resolved the problem. She didn't seem rushed and
	1309787	5.00	even waited to make sure everything worked.  Person I spoke due was able to resolve the auto-reply
			message problem, but did know how to fix my iphone email
	1309543	4.17	access problem.
			The staff member was extremely helpful and showed me how
			to solve my problem right away. The only slight annoyance was how long I had to wait for someone to come to the phone.
			However, I can say your choice of music for people on hold is
	1308992	5.00	better than most.
	1308686	5.00	Thanks going out of your way to assist me.
			In general instruct your staff to speak slowly, and clearly. It is especially difficult when dealing with staff members who are
			not native English speakers. Many tend too garble their words
			and speak at a pace appropriate to their own native language
	1308515	3.33	which is very often fast relative to that common in US.
			Only thing I can think of is to be even quicker, although you
	1308313	5.00	already were very quick.  Webmail was intermittently hosed over the weekend. I just
			needed some confirmation that it was, in fact, webmail that was
			hosed, and not my setup. As soon as somebody started
			looking at the ticket queue on Monday, they got right back to
			me with enough info. What more could anybody do? Nice job!
	1308106	5.00	and thanks again.
			I ended up solving the problem on my ownI had to restore
			the factory settings on my iPhone to install the MIT certificates.
			However, the technician I talked with was excellent and offered
	1304344	5.00	to work on my phone if I brought it in.
			My question was more organizational than technical in nature
			(I was trying to figure out who in IS&T I should contact about
			something, as opposed to getting an immediate problem
			solved), so maybe this wasn't the right forum for it. Even so, the first response I got back was frustrating because it didn't
			address my actual question, as if the representative hadn't
			actually read my email, or did read it but didn't know the
			answer, so decided to respond to a different question instead. I
			would have preferred an "I don't know", which would at least
			have saved me the time re-explaining myself. The second
			response was better because it gave me another email address to which I could direct my question, but it still felt like the staff
	1304263	3.33	wasn't equipped to deal with this kind of inquiry.
	3.2.200		
			My only negative comment is that I'd asked to be notified by
			phone of any updates when I dropped off my laptop simply because I wouldn't be checking my email as religiously without
			a laptop, but instead only got the emailed updates to the ticket.
			Ticket responses were quite prompt and it worked out without
			a problem in the end, but I imagine this could be more
Help Desk::Service Center	1312080	5.00	problematic for someone without a smart phone.

				My overall dealings with Stellar this week have been horrible.
				There has been complete confusion about a simple request to
				provide websites for multiple sections of a class (21W.730)
				taught by different instructors. In addition, when I applied for
				a website for my other course, SP.401, Intro to Women's and
				Gender Studies, I was told that the course wasn't listed in the
				registrar's schedule. When I found the listing in about 5
				seconds and sent it to Stellar, I was told that the problem was
				that the course was listed as SP-401, when it should have been
				SP.401. That may or may not be true, but wouldn't it make
				sense to check under SP.401? The impression is that these
				transactions are being handled completely by machine and not

	7/21/2010	Help Desk::Call Center	1293087		The answers above pertain to the session with the Help Desk on July 28. b) This second comment concerns the email message to me from Rob Smyser titled "your feedback on Help Ticket 1293087", July 28, 2010, 9:50:15 am. Please do not spend more than a moment (even if that) on this comment of mine: it may simply be some minor problem associated with my particular computer; and, as you will note at the end of these comments, I have resolved the issue concerning my comment b), herein. 					While I realize the issue was one that was outside MIT Help Desk expertise, I've had such good experiences with the Help Desk in the past, that I guess I expect miracles. Then the response did not indicate whether anything might have been done in those 24 hours to fix the problem simply that at that point it looked like it was working. The problem I had reported had in fact gone away, but the update service was still not working at the time that I got the response. Instead, any attempt to run up2date produced the dreaded message to the effect that the metafile had a bad checksum. I tried using "yum clean" followed by "yum update" to make sure that the problem was not something at our end. That didn't fix it. This condition had happened in my experience numerous times in the past and it was always corrected when the MIT satellite was put back into synchronization with the RedHat servers. It was because of this ongoing problem that we had switched most of our servers over from the MIT satellite service to using the paid-for commercial serv! ice directly from RedHat. I did not report this problem, in part due to past failures to get anything done about it. Eventually that checksum problem too was corrected, but it
