

ISIT Portfolio

defining categories - wait until we put stuff into category(s)
 whiteboard services + solutions first, then do details target 5/5
 input into Catalyst - take turns (Chris, Barry, Pat...)
 email distribution

* Are upstream data sources components of (IS SAP component of BW?) a solution?

Business rules:
 1) Service only exist in one category
 2) Solution can exist in many services

IDENTITY MANAGEMENT

Groups management

Lists → Mailman, moira

SERVICES

Authentication (How do I know it's really you?)
 Authorization (what do you want?)

Touchstone, Kerberos, certificates, Roles (rewards is product), moira

Directory Services → LDAP, Kerberos, AD

Identity (whose are you?)

MIT ID DB → MIT Kerberos Account (principal)

STRATEGIC
 Future use of tool:
 • what should we retire?
 • what services do we invest in?
 • what services are missing that we should offer?

SECURITY

Device Security → Disk Encryption, Remote Erase, Stop Trojan, P2P Control, Wipe
 Data Auditing → ID Finder, DC security, Forensic, Images, Analysis
 Incident Response → SIEM, Incident Analysis
 Abuse Prevention Response → SPIP, Coprnt
 Desktop Security → McAfee, McAfee Virus, Windows
 Border Protection → Firewall, VPN
